Document SCV-102426 **Revision** 1 **Status** RELEASED **Issued** 27 Jan 2026

Certificate of Analysis

This certificate confirms the independent laboratory analysis of the goodaminos.de product batch identified below.

1 · PRODUCT IDENTIFICATION

Product	**Retatrutide**	Supplier	goodaminos.de
Designation	Retatrutide	Retail presentation	20 mg / 50 mg
Tested sample	30 mg	Recommended storage	−20 °C, dark
Laboratory	Janoshik Analytical	Lab report no.	#102426

2 · SCOPE & METHOD

Independent third-party analysis performed by Janoshik Analytical. Identity and purity determined by reversed-phase HPLC with ESI mass spectrometry; bacterial endotoxin, where listed, by the LAL method. Results apply to the tested batch; purity is representative of the batch as supplied in all retail sizes.

3 · TEST RESULTS

PARAMETER	SPECIFICATION	RESULT	METHOD
Identity	Conforms to reference	**Retatrutide**	RP-HPLC / ESI-MS
Purity	≥ 98.0 %	**99.768 %**	RP-HPLC
Measured content	Per tested sample	**30.87 mg**	RP-HPLC
Purity profile			

4 · CONCLUSION

VERIFIED · OVERALL RESULT: PASS
Identity and purity conform to specification.

5 · AUTHENTICITY
